Caesar Shift 3

Christ has desired only one kind of gratitude: the praise that comes from the transformed individual.

It is no good for us to bow and scrape before God in words and phrases and in such activities as building churches and binding Bibles in velvet. God has a particular language for addressing him—the language of action, the transformation of the mind, the course of one's life.

The only art Christians should practice is worship. Not with words and chatter—no, with action in unconditional obedience.

You can worship only by becoming weak. Woe to the presumptuous person who in his proud strength is audacious enough to worship God! The true God can be worshipped only in spirit and in truth—but precisely this is the truth, that you are entirely weak. In fact, you are nothing.

-Søren Kierkegaard
